

Regulation (EU) 2023/2854 (“EU Data Act”) – Connected Products and Related Services Declaration regarding Petridis S.A. On/Off Luminaires

The luminaires supplied by **Petridis S.A.** are conventional lighting products that do not incorporate any functionality for the collection, processing, or transmission of user-specific or operational data.

Accordingly, these luminaires do not generate any user-related or usage-based data that would fall within the scope of Regulation (EU) 2023/2854 (“EU Data Act”) concerning connected products and related services.

More specifically, the luminaires provided by Petridis S.A. are not equipped with sensors, connectivity features, or digital service capabilities that would enable the collection, storage, or transmission of operational or usage data to third parties.

Based on their technical design and characteristics, these products do not qualify as “connected products” within the meaning of the EU Data Act. Therefore, no obligations related to data access, sharing, or portability arise under Regulation (EU) 2023/2854 in relation to these luminaires.
